

Buck Meadows

Restaurant

Please relax and enjoy your visit and we will do our best to make it a memorable one. We sincerely believe that our quality, homemade style, large portions and reasonable prices will continue the tradition started in 1874 of making Buck Meadows a favorite "Stage Stop" for many a hungry traveler, as well as the local loggers and miners.

Buck Meadows was originally called "Hamilton's Station" and was named such for Ivah and Johannah Hamilton back in 1874. It was a stage stop on the way to Yosemite and its "claim to fame" was having the coldest drinks in the area.--the cold courtesy of nearby natural springs.

The area was renamed Buck Meadows in 1916 and was soon bustling because of the building of the Hetch Hetchy Dam. A construction camp was here for the several hundred hard rock miners working on the railroad tunnels.

Today Buck Meadows is still a great place to stop off on the way to and from Yosemite.

Your Host, *Joe McGrath*

We proudly serve only USDA Choice Certified Angus Beef®
